Cherry River
Cherry River Elementary School, Richwood, WV USA
Elementary students in a small town in West Virginia study different rivers and the seasonal impact upon them.

1 School - 1 Teacher - 60 Students - 58 Comments

King 🇺🇸 says:
How is this river different or the same as our Cherry River?

J 🇺🇸 says:
This river is wider than the cherry river...And this one has a little water fall and the cherry river does not.

King 🇺🇸 says:
What time of the year do you think this picture was taken and why?

D 🇺🇸 says:
I think it looks like Spring, or fall because it is dry and there are no leaves on the trees.
